

FULL LIFE COUNSELING & RECOVERY

NARCAN-EQUIPPED FAMILIES CREATE OPPORTUNITIES FOR RECOVERY

In years past, Full Life was able to easily access supplies of naloxone overdose reversal kits. Then, in an effort to increase access to this life saving medication, laws were relaxed to allow individuals to purchase naloxone or Narcan without a prescription in many states, including North Carolina. That means it has become harder for Full Life to maintain a distribution network to make sure that we always have supplies. So....

----Visit CVS, Walgreens or other major pharmacies to request your own supply of naloxone.

-----Call Full Life - 336.923.7426 - to schedule a training session to learn how to recognize an overdose and how to use your naloxone kit.

NALOXONE IS
THE GENERIC
FOR NARCAN
